

BULLSH*T BINGO

<p>I have nothing to hide.</p> <p>(no I won't give you my phone)</p>	<p>Why would the government care about my data in particular?</p> <p>(I don't mind if only journalists use encryption, it makes it easier for Donald Trump to... oh..maybe I do care)</p>	<p>They already know everything about me anyway.</p> <p>(because I assume that every relevant law is being broken and don't mind so much)</p>
<p>There is nothing I can do about it.</p> <p>(because I don't believe in democracy)</p>	<p>It's too complicated to switch from Whatsapp to Signal or Wire.</p>	<p>If it helps fight terrorism (defend our freedoms), I don't mind giving up my privacy.</p> <p>(abandoning our freedoms)</p>
<p>You can buy weapons on the dark net.</p> <p>(I read it in a tabloid)</p>	<p>There is child pornography on the internet.</p> <p>(and therefore we should have no democratic freedoms any more)</p>	<p>I don't mind giving them my data, if I can use their service for free in exchange.</p> <p>(free, meaning I will be stalked around the internet, profiled and manipulated. Why not?)</p>
