WHO ARE WE?

EDRi is an association of 44 civil and human rights organisations from across Europe and beyond. We are a dynamic and resilient collective of NGOs, experts, advocates and academics working to defend and advance digital rights across the continent.

EDRi vision

We envision a world in which people live with dignity and vitality in the digital age. Our aim is to create a fair and open digital environment that enables everyone to flourish and thrive to their fullest potential.

EDRi Mission

Our mission is to challenge private and state actors who abuse their power to control or manipulate the public. We do so by advocating for robust and enforced laws, informing and mobilising people, promoting a healthy and accountable technology market, and building a movement of organisations and individuals committed to digital rights and freedoms in a connected world.

WHAT ARE OUR OBJECTIVES?

1. Advocating for laws and policies that effectively protect peoples’ digital rights.
2. Mobilising people against injustice and threats to democracy and the rule of law in the digital age.
3. Countering the abuse of power by dominant private actors in digital technology in order to protect people and their digital rights

HOW DO WE SEE CHANGE HAPPENING?

Under their current modes of liberal democracies functioning, we think we can best achieve the change we want to by challenging power imbalances through the following enablers:

- Evidence-based advocacy
- Strategic coordinated litigation
- Mobilisation
- Human rights monitoring and reporting
- Information & Communication
- Fundraising, financial & legal compliance
- Empowerment, leadership & innovation
